TOP QUALITY AND
INNOVATIVE MARKING PRODUCTS_

Trodat is the global market leader in self-inking stamps and over the past 50 years, it has been the predominant player in terms of innovation, design and function. Trodat invented the original TRODAT PRINTY – the world's most popular self-inking stamp – with worldwide sales of 150 million units.

Trodat stands for quality and we have been accredited to ISO 9001 and EN ISO 9001:2000 since 1995. Our experienced engineers are responsible for the highest degree of functionality of our products and for clean and simple pad-changing. Internationally recognised determine our excellent product design and the best possible ergonomics, since with Trodat, the human being is the measure of all things.

Trodat stands for innovation. The Original Printy has become the benchmark of an entire industry, since all substantial competitors have copied both the function and design. This trend towards leadership in innovation is doubly emphasised by the Trodat MULTI COLOR IMPRESSION – the first individual multi-coloured stamp.

Trodat stands for partnership. Most of our global business partners have been collaborating with Trodat for many years. Continuity, confidence and reliability characterise the quality of our partnership with all our customers – worldwide.

TRODAT MULTI COLOR IMPRESSION_

THE FIRST INDIVIDUAL STAMP THAT MAKES AN IMPRESSION IN FOUR COLOURS_

MULTI COLOR IMPRESSION

INDIVIDUAL COLOUR STAMPS

Trodat now has something that others do not have.

Multi-Color-Impression – the first colour stamp available right now for many Trodat models. The four colours can be individually combined in any way you like. The owner leaves a unique and lasting impression.

We are particularly pleased that this innovation will make the world a little bit more colourful and friendly.

THE ADVANTAGES AT A GLANCE_

• A choice of 4 different colours for your impression

• Customised impression:
  colour fields can be freely selected

• Top quality impression: a perfect impression you
  have come to expect from Trodat stamps, together
  with a lifetime guarantee

Trodat provides a stamp impression with more colour, structuring it precisely in individual colour fields. You can emphasise your logo, company name, new telephone number and information in colour and stand out from your competitors.

HIGH TECH FOR MORE COLOUR_

MULTI COLOR IMPRESSION is based on a high tech and patent-pending production process ranging from precise cutting between the colour fields to the best possible pad-inking. The whole design focusses on a top-quality impression for the customer.

This technology is supplied by Trotec, part of the Trodat Group. The specialist knowledge comes from Trodat and the stamp makers.

PRECISE CUTTING_
Laser technology from TROTEC, a company of the TRODAT Group. A laser beam accurately cuts the specially processed pad material to within a tenth of a millimetre. These precise high-tech cuts separate and seal the different colour fields.

TAILOR-MADE COLOUR FIELDS_
In order to tailor-make the impression to the customers' needs, the colour fields can be arranged in any way on the pad.

TRODAT MULTI COLOR IMPRESSION provides you with a high degree of independent design. The only limitations are that there must be a space of at least 2.5mm between the letters or characters in the different colour fields and that the minimum size of any colour field must be 8mm x 8mm. Using the layout of the text on the stamp, the TROTEC software calculates the best possible contours of the colour fields.

PERFECT INK DOSAGE_
In order to ink the colour fields accurately with original Trodat inks, special ink injectors have been developped to dispense the correct amount of ink accurately to within a tenth of a millimetre by using special software. The result is a beautiful Trodat-quality stamp impression.

! RE-ORDERING IS EASY_
Original Multi Color pads for individual multi-colour stamps are quick and easy to order.

MULTI COLOR IMPRESSION COMPATIBLE STAMPS_

• TRODAT PRINTY LINE_
All Printy NEW text stamps from size 4912 and above (circular stamps from size 46030 and above) and the NEW Printy dater + text

• TRODAT PROFESSIONAL LINE_
All Professional Line text stamps, daters + text, numberers + text

---

TRODAT PROFESSIONAL LINE_
QUALITY WITHOUT COMPROMISE_

Whether you are working at a counter or in an office, the Trodat Professional Line is the best choice for self-inking stamps. Ideal for multiple stamp users, their strong point is that they are reliable, clean and easy to use.

The standard for the Trodat Professional Line is uncompromising quality: robust steel core and top quality plastic, strict quality control for the finish and ergonomic design.

THE HANDLE_
ergonomically designed

THE STEEL CORE_
Sturdy construction for repetetive stamping

THE TWO-WAY LOCKING MECHANISM TO FACILITATE_
- daily date changing
- pad-changing

INDEX WINDOW_
Shows the full stamp text in the original size

GENEROUS DIMENSIONS_
The small size of the date slot in the dater and numberer models allows you more space to set your customised textplate.

THE PLASTIC FRAME_
Twice the usual lifetime thanks to the use of a new and even sturdier plastic alloy.

THE SHOCK ABSORBER_
Stable and well balanced, quiet stamp action

THE STABLE STEEL POSITIONING FRAME_
So that you can position the stamp accurately
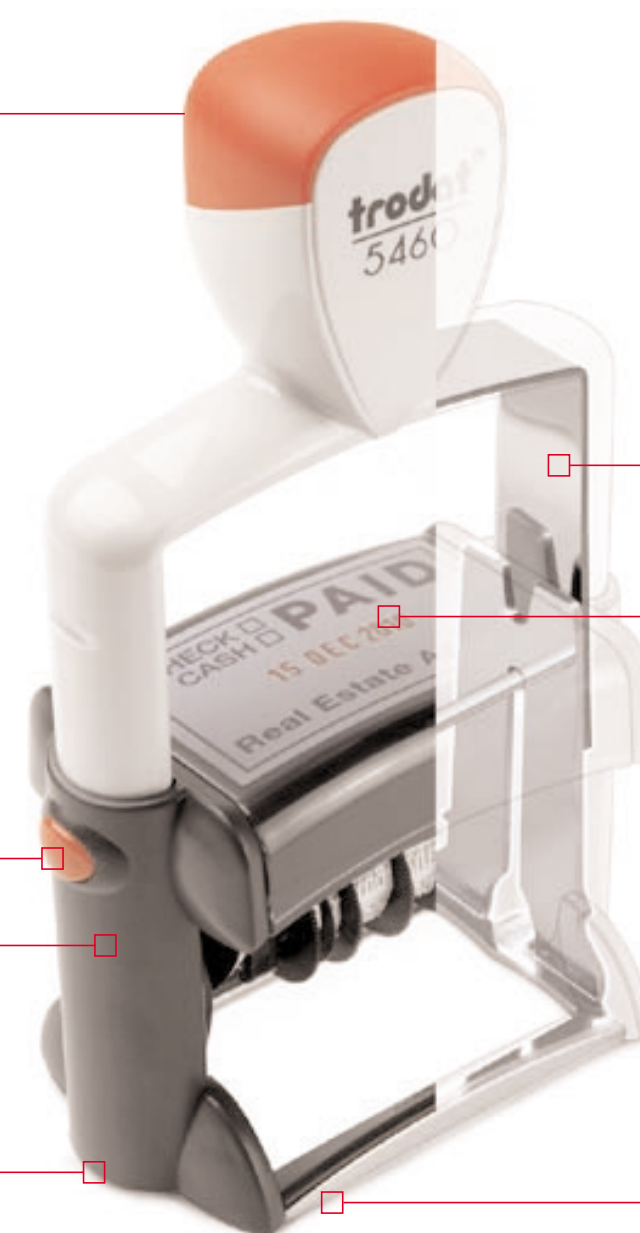

For a company or address stamp, also available with company logo –
a Professional Line stamp is available with a textplate size to suit every
requirement.

TRODAT PRINTY LINE_
THE ORIGINAL

1976–2006
30 YEARS
ORIGINAL PRINTY

Not for nothing is the Original Trodat Printy the most widely purchased self- inking stamp with more than 150 million stamps sold worldwide: the perfect all-round stamp for use in a wide range of activities.
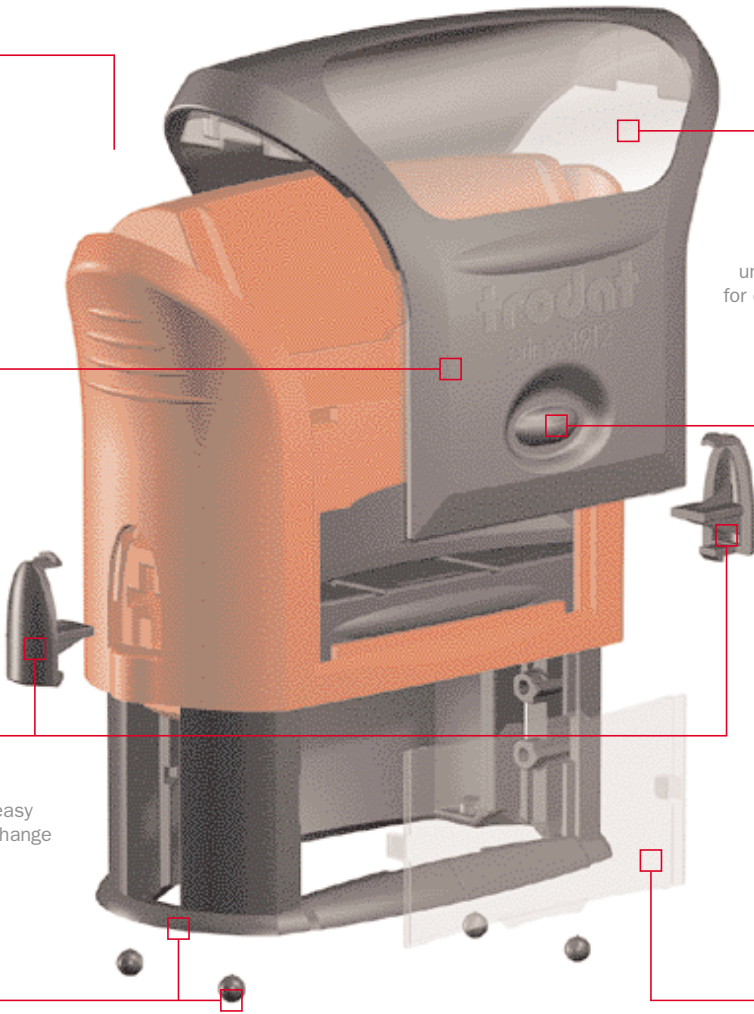

Reliable quality, simple handling and a modern design have distinguished the Original Trodat Printy for thirty years.

ERGONOMIC DESIGN_
Dynamic shape complies with ergonomic guidelines

INDEX WINDOW_
Clearly positioned on the front of the stamp at a 45° angle for optimum view of impression

SOFT-TOUCH GRIP CAP_
Pleasant handling, high quality, contemporary look (soft-touch material with Printy sizes 4910-4913)

CLICK-OUT-BUTTON_
unique – and therefore patented – for clean and easy pad replacement at the touch of a button.
www.click-out.net
Eject pad using STOP-POSITION

DOUBLE-SIDED LOCKING MECHANISM_
2 locking positions make it easy to mount the textplate and change the pad.

STABILITY_
improved thanks to a widened, elliptical base and a new anti-slip feature.

POSITIONING WINDOW_
transparent, for accurate positioning of the stamp

TRODAT PRINTY RANGE_

For both name and address stamps with 2, 3 or more lines, Trodat now provides you with the New Printy, equipped with a textplate size to suit your requirements.

All models are supplied with a built-in stamp pad which can be easily replaced after many impressions.

TRODAT SWOP-PAD REPLACEMENT PADS_

SWOP-Pad, the original Trodat replacement pad for the Printy and Professional Lines, guarantees consistently outstanding quality – from the first impression to the last.

| no re-inking | clean hands | clean impression | 5 stock colours |

SWOP-Pad
ORIGINAL BY TRODAT

THE ADVANTAGES SPEAK FOR THEMSELVES_

• clean impression, document quality
• precise inking prevents colours running
• no drying out; non-toxic colourings; free of heavy metals
• clean pad change in no time at all

STAMP QUALITY_
2-part pad material and precise metering of ink ensures that the pad does not dry out and thus guarantees consistently outstanding quality

TWO IN ONE_
for daters and other special applications, such as seal stamps, a 2-colour red and blue SWOP-Pad is available.

PAD REPLACEMENT_

Replacement Pads
TRODAT IMPRESSOR PRE-INKED_

All the features for a perfect impression. The Impressor by Trodat combines both intelligent technology and functional design. Experience a new standard in pre-inked stamps; we are sure you will be impressed.

INDEX AREA ON CAP_
is perfect for customising.

REMOVABLE CAP_
for internal height adjustment
(avoids accidental adjustment).

LARGE INDEX AREA_
perfect for customising
and protected by a transparent
index window.

DUST COVER_
protects the textplate.

EASY TO USE_
the separate textplate holder allows for easy adjustment of
the pre-inked textplate. The unique "click-in" function allows
for easy adjustment and even pressure on the textplate.

ACCESSORIES RANGE_

P800 - A4 Laser sheets for pre-inked textplates (*ideal for use with a* Laser appliance *from* Trotec)
7091 - Pre-inked stamp re-inking ink, 10ml (black, blue, red, green, violet)
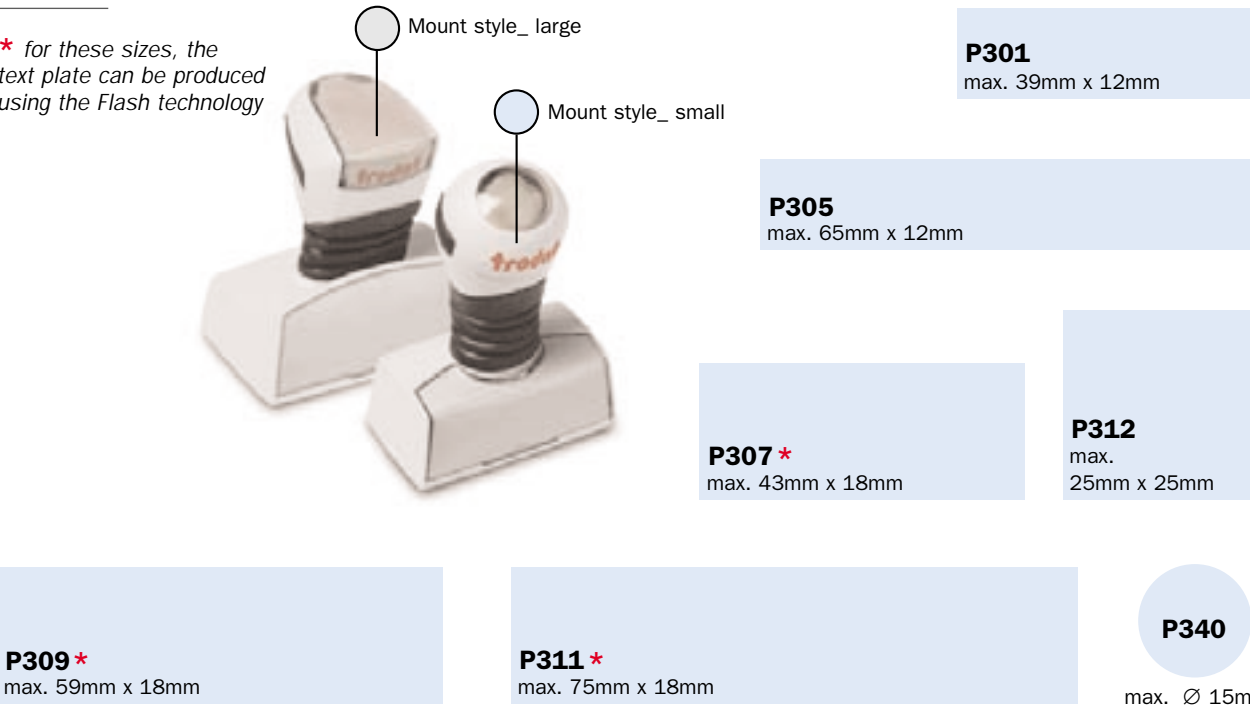

RE-INKING_

Releasing the textplate holder ("click-out system").
1A pull the cap away from the handle using the bevelled area at the rear of the stamp. Align the release pin with the slit. Press the release pin downwards to release the textplate from the mount. Leave the textplate on the dust cover.

1B remove the dust cover.

2 Re-inking –
now you can see the holes which
enable you to re-ink your stamp easily.

3 Easy re-assembly:
position the textplate over the centring marks on
the dust cover and by applying light pressure on the
handle, the textplate will be remounted accurately
("click-in system").

*For detailed instructions on re-inking, please refer to: www.trodat.net/reinking

IMPRESSOR FLASH SYSTEM_

Together with IMPRESSOR stamps, Trodat also offers a complete Flash System. This system consists of the following accessories to create a pre-inked Flash Stamp:

- **Flash text plate** (Flash die) - punched foam with sealed edges
- **Flash cartridge** (Flash ink reservoir) - pre-inked or uninked
- **Retainer ring** for mounting the flash text plate and ink cartridge
- Optional: **Flash ink 7093** 28ml or **7092/1** 1l - specially mixed for the Trodat System for inking the un-inked ink cartridge
- 8810 Vellum paper
- 8812 Protective film

THE FLASH-SYSTEM IS AVAILABLE FOR UP TO 12 SIZES:

IMPRESSOR FLASH KIT_

P336 FLASH KIT	93 x 63	5 pcs	5 pcs	5 pcs

***Flash Cartridge** (ink cartridge, individually packed in plastic bag) inked in **black**, **blue** or **red** or un-inked (not individually packed).

Flash text plate, cartridge and retainer ring are also available individually (product no. + product description, for example, P307 Flash text plate or P307 Flash cartridge blue, etc.)

THIS IS HOW THE NEW TRODAT FLASH SYSTEM WORKS_

1. Affix text plate and **print** onto vellum paper (using a laser printer).
2. Flash process (people who are already working with Flash will be familiar with this process).

Place the printed vellum paper (right-reading) onto the glass surface of the flash machine.

Place the protective film over the vellum paper.

Place the flash text plate on top of the protective film (printing side facing downwards). Adjust the text plate with the help of the printed alignment frame. To ensure the printing is even when flashing, place a 2mm thick plastic or metal plate on top of the text plate.

Close the flash machine and activate the flash (with most devices, the flash is automatically activated after the lid has been closed).

THIS IS HOW THE NEW TRODAT FLASH SYSTEM WORKS_

3. Mounting the stamp

Place the finished text plate into the retainer ring with the printed side facing downwards.

Place the saturated ink cartridge on top of the text plate.

Insert the set (text plate, ink cartridge and retainer ring) into the text plate holder.

Place the entire text plate assembly onto the centering marks of the dust cover. Now place the stamp on top of it and press down gently on the handle to ensure that the text plate assembly is correctly mounted in the stamp.

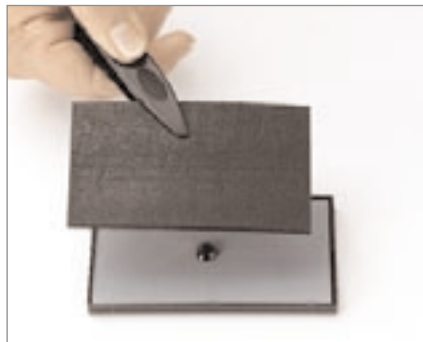

FINISHED!
(The stamp is ready for use after 1-2 hours)

Mounting of larger sizes (P323, P325, P329, P331, P333, P336)

Only for P333 and P336:
Place a drop of glue in the middle of the flashed text plate.

P323, P325, P329, P331, P333, P336. Place the saturated ink cartridge on top of the text plate. Place four drops of glue into the text plate holder (6 drops of glue for size P336).

Insert the set (text plate, ink cartridge and retainer ring) into the text plate holder as shown above. Press together and hold for several seconds. The retainer ring must be fully inserted in the text plate holder.

Place the entire text plate assembly onto the centering marks of the dust cover. Now place the stamp on top of it and press down gently on the handle to ensure that the text plate assembly is correctly mounted in the stamp.

FINISHED!
(The stamp is ready for use after 1-2 hours)

TRODAT CLASSIC LINE_

Products from the Classic Line Series are stamps that can truly be described as evergreen.

Hand stamps from the Classic Line series are available as date stamps (with or without text), dial-a-phrase stamps or numberers.

The Classic Line offers a range of distinct product advantages. The 2910 model is remarkable as much for its modern design as for its compound structure which contains a super strong metal core.

FUNCTIONAL_
the turning wheels are used to set the date and to identify the front of the stamp.

PRACTICAL_
the locking mechanism allows you to open the dieplate easily.
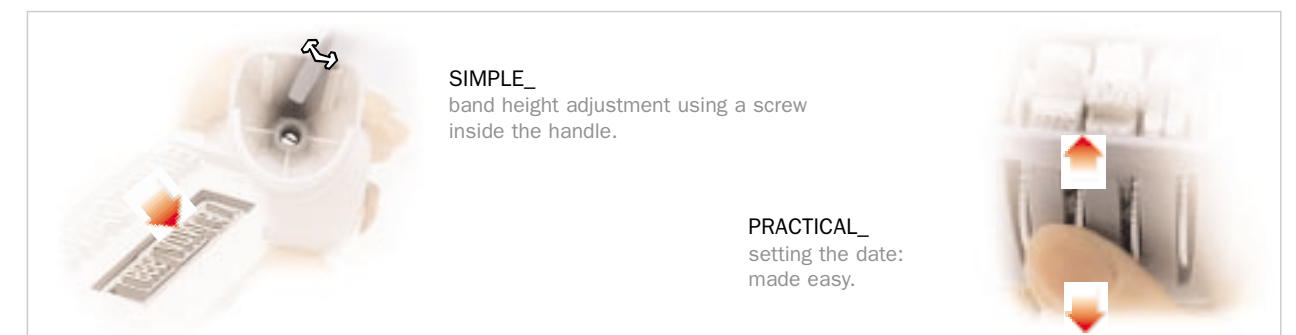

SIMPLE_
band height adjustment using a screw inside the handle.

PRACTICAL_
setting the date: made easy.
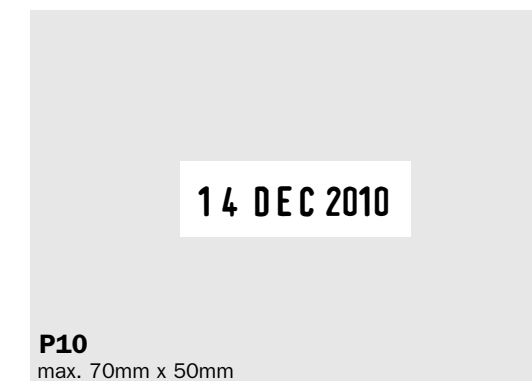

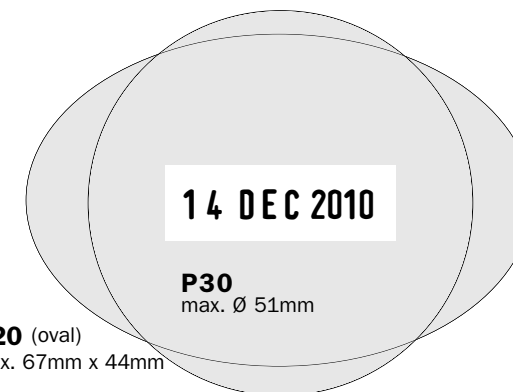

Impressor – Pre-Inked

Classic Line

The 2910 Dater series, with many different dieplate sizes, makes this range suitable for any text. Special plates and standard texts are available upon request.

TRODAT TWIN_

Not only is writing with the Twin a real pleasure, but the real surprise is the hidden self-inking stamp that is personalised just for you.

For your own use or as a gift, each and every Twin has its own character with a unique impression. Twin – a writing instrument and something more...

Twin_ The writing instrument that converts into a stamp in one simple move. Just turn the pen round 180°, press the clip and you're ready to stamp your chosen message.
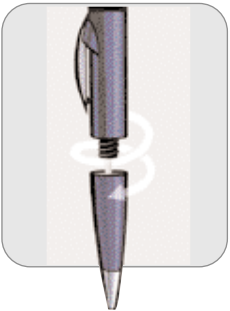

COLOUR RANGE_

310171 – black
310176 – white
310180 – blue
310184 – red
310185 – orange

6/310 – Replacement pad; black
packed in 10's also available un-inked

307162 – Replacement refills D1 blue, packed in 5's

307165 – Replacement refills D1 black, packed in 5's

IMPRESSION SIZE_

max. 35mm x 7mm

textplate for max. 3 lines of text.
textplate thickness: 1.5mm

The Twin is packed individually as standard.

WRITE + STAMP_

Writing_
with the Twin is a real pleasure. The standard refill with a stainless steel nib and high-grade tungsten carbide ball offers optimum writing comfort. The writing length is over 1000 metres.

A PLEASURE TO OPERATE_
the soft-switch turning mechanism which activates the high-quality Twin refill is easy to use and offers maximum writing comfort.

CLIP RELEASE_
this is the unique magic formula for converting the Twin into a fully functional stamp in one simple move. Simply turn the Twin 180° and press the clip: the stamp is ready for printing. The stamp can be closed just as easily: turn the Twin vertically into the writing position, press the clip and that's it.

REFILL REPLACEMENT_

PAD REPLACEMENT_
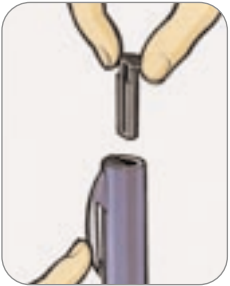

STAMPING_
in the office, at home, at parties, at school, ...

The high quality of the self-inking stamp inside the Twin makes a clean impression every time.

Twin

TRODAT MOBILE MARKER_

The pocket stamp in mini format. Make an impression on the move!

Nowadays, there is an ever-increasing need for flexibility and mobility. These demands are met by the new Mobile Marker. The pocket stamp in mini format with maximum impression.

MOBILE MARKER_

MINI FORMAT_
its small size – no bigger than a cigarette lighter – makes it easy and convenient to carry: it fits in any pocket.

MAXIMUM IMPRESSION_
the maximum impression size is 47mm x 18mm and allows up to 5 lines of text. The built-in pad with precise ink metering ensures a clean impression.

ATTRACTIVE DESIGN_
All component parts are fixed together to form a single stamp, so that it is fully secure.

Its attractive and unique design makes the Mobile Marker more than just a useful accessory.

SIZES AND COLOURS_

9412

Individual design options.
Textplate for up to 5 lines of text.

Please set textplate thickness to 2.3mm

max. 47mm x 18mm

translucent blue   translucent red   translucent grey   grey/white

WHEREVER YOU STAMP_

CLEAN & EASY TO USE_
the Mobile Marker is simple to use. Its innovative triangular format ensures stability when stamping.

PRACTICAL CLIP_
with its built-in clip, it can be easily attached to a jacket or trouser pocket.

MAXIMUM IMPRESSION_
the Mobile Marker allows for up to 5 lines of text and can be used like a business card.

TO OPEN: PRESS THE BUTTONS ON EACH SIDE
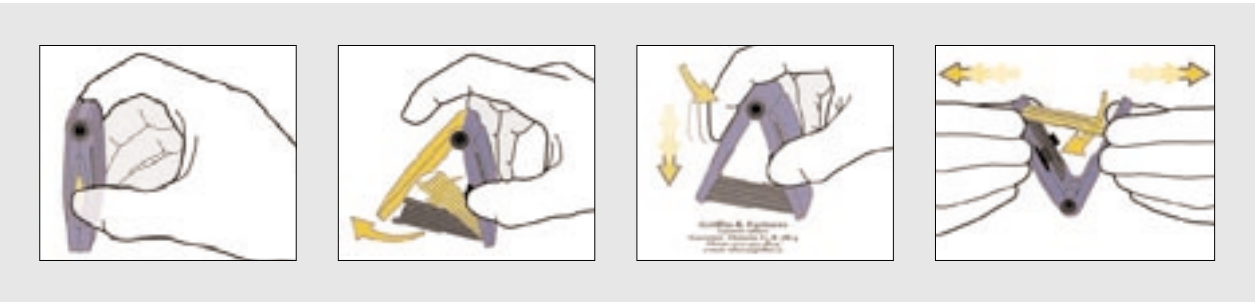

9412_ typo

Available in blue only

For up to 4 lines of text, 1 letter set 6003 (3mm), 1 letter set 6004 (4mm)

TRODAT INTERNET SERVICES_

Trodat's uTypia internet software is designed to support its customers with their online selling. uTypia is a top-quality solution including many functions specially designed for the marking products business. Using uTypia, all you need is access to the Internet and an email account to sell your products. Thanks to its flexible applications and its broad range of products, uTypia meets all your demands and requirements. Please feel free to contact us about a custom-made solution for your Internet sales.

INTERNET SERVICES_

Having a presence and selling on the Internet is becoming more and more important. Trodat's professional Internet services are there to support you. **You can find more information on ww.uTypia.com**

THE uTy SERVICES INCLUDE_

- **uTypia shop 3.0_**
  The Trodat uTypia Shop is a quick way for customers to design the layout of their own stamps. Layout previews, draft designs and a logo library simplify this process. Printed forms and signs can also be sold via the uTypia shop. Price lists and product catalogues can be created for each individual user and the uTypia shop can be perfectly integrated into other systems.

- **uTypia shop light 2.0_**
  The light version of the uTypia shop gives you the option of selling your products on the internet with only a small investment cost. The light shop is equipped with the basic functionality required for an Internet stamp shop, which now includes graphics and discount functions. uTypia light can be extended by additional modules up to the full version.

- **uTypia voucher 2.0_**
  The voucher solution is based on a practical system. A voucher is incorporated into the stamp packaging. A code is quoted on this which enables the customer to access the voucher page on the Internet. This is where customers can design a textplate for their stamp on the Internet and submit it themselves. Preview layouts and graphics uploads simplify the ordering process.

- **uTypia page 2.0_**
  You can present your company and its products on your own Homepage. In addition to the contacts page, your customers can also place orders for standard marking products. To create your Homepage, you do not need any Internet knowledge: just enter your message on a simple input form.

For further information, see: **www.uTypia.com**

The online typesetting solution

TRODAT SEAL_ <small>FOR WINDOWS®</small>

VISIBLE SECURITY FOR
ELECTRONIC DOCUMENTS_

Your stamps now go digital and are more secure than ever before!

You can produce them from any Windows® application by pressing the command PDF documents and they will be protected by the Trodat Seal in the same step.

This provides proof to the receiver of the documents authenticity.

Trodat Seal – protection against identity theft and document fraud using the social accepted methods of stamping and signing.

TRODAT
DIGITAL PEN_
Save on costs

With the **additional Trodat Digital Pen software** and a signature pad, even your own signature can now be digitalised with biometric security to protect your original documents. Give your electronic documents the personal touch!

<small>System requirements: Windows 2000®, Acrobat Reader® and internet connection.</small>

Instead of printing out on paper and signing: Sign the electronic document easily, quickly and securely.

FURTHER ADVANTAGES_

FOR SIGNATORIES

■ **STAMP AND SIGNATURE_**
now available digitally. Visible marking on the screen and on printed documents.

■ **BENEFITS YOU_**
in saving time and costs whilst working electronically.

■ **JUST LIKE USING A STAMP_**
Authenticate, organise, validate, inform.

FOR RECEIVERS

■ **VALIDATE THE ORIGIN _**
and verify the documents authenticity with the click of the mouse.

■ **CHECKING_**
All you need for checking is an internet connection (no additional software). Even the paper original can be checked.

trodat DIGITAL SEALING

SEE MORE AT_ http://seal.trodat.net

EU Approval
The Trodat digital Sealing Technology uses internationally and technically recognised procedures for the use of an electronic signature for the protection of documents against forgery and to rule out identity theft. Trodat Digital Sealing is approved as an "advanced signature" complying with EU signature legislation from the registration authorities.

Receiver clicks on the line to validate the document

That's how easy it is to work with the Trodat Seal_

AS SIGNATORY AND/OR SENDER_

You have created a document (or returning to an existing PDF file) and want to "seal" it.
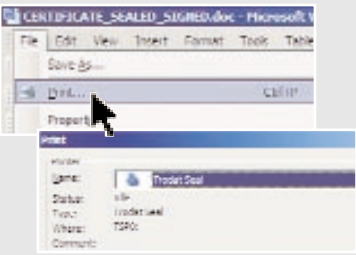

From your standard "Print" command, select the "Trodat Seal".

At the next click of the mouse, your document is changed into a PDF file. It cannot be separated from the Trodat Seal, which makes it into a permanent original.

AS RECEIVER_

YOU CAN NOW_

SEND THE "SEALED" DOCUMENT _
electronically by email or printed out and sent by post

STORE_
store it on your PC or server, print it out or file it

You have received a "sealed" document by email and you want to check that it has not been changed or forged by a third party:

Just click on the validation link for the digital seal on the document.

A few seconds later you will receive a certificate, which provides reliable information concerning both the authenticity of the document and the identity of the signatory.

TROTEC LASER ENGRAVING TECHNOLOGY_

Over the past few years, laser technology has set out to conquer the stamp industry and Trotec products have become the world's best-selling laser systems for stamp manufacturers, thanks to our innovative and reliable solutions.

YOU CAN BENEFIT FROM_

- **Individual items or series_**
  Whether you manufacture A4-plates or individual stamps, Trotec can provide you with the best possible solutions for all your needs.

- **Maximum productivity_**
  The fastest engraving speeds available and minimal maintenance ensure that your Trotec lasers make profits for you.

- **Environment conscious production_**
  Production is characterised by a direct link between the computer and the plate, thus avoiding intermediate materials and waste products such as foils, stencils or chemicals.

- **High degree of flexibility_**
  Laser systems can be used for a series of applications such as plaques, promotional items, displays, etc. As a result, you will see benefits even faster when using your Trotec laser.

- **Low-cost production method_**
  Reasonable Laser technology offers you good value for money compared to other manufacturing methods as it ensures low investment cost with the best possible profit margins.
